HOW TO GET RICH
SLOW (but sure)

Every dollar you invest in Series E Savings Bonds grows 33⅓% bigger in 7 years and nine months. You can count on it.

It's not as exciting as drilling a wildcat oil well, or diving for sunken gold. But it's mighty reliable. Especially when you use the Payroll Savings Plan to help you make sure you buy Bonds regularly.

This famous plan takes the backsliding out of saving money by making it automatic. You just tell your employer you want him to set aside a small amount from your check each payday.

($4.33 a week will add up to twelve $25 Bonds a year. But you can have more or less deducted as you choose.)

Then you forget all about it. Savings come easily and almost painlessly. You never see the small amount that's deducted so you hardly miss it.

There's a unique satisfaction to saving money this way, too. Everytime you slip another Bond into your pocket, you know you're helping your country as well as yourself. Uncle Sam uses the money to help America resist the forces that threaten our freedoms.

Another thing about getting rich slow with U. S. Savings Bonds is that almost anybody can do it. So why not sign up for Payroll Savings before next payday?

Quick facts about Series E Savings Bonds

- You get $4 for every $3 at maturity
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen
- You can buy Bonds where you work or bank

Committee Talks Squaw Problems

A recommendation that the state not improve Olympic Villlage at Squaw Vallley, but instead demolish the dormitories, was questioned last week during a hearing before the assembly ways and means committee.

"We've obligations to maintain these buildings and so we must," said Fred L. Jones, state director of parks and recreation.

The subcommittee had under discussion support budgets for 1966-67 totaling $15.5 million for the department and its subdivisions. Assemblyman Carley V. Porter of Los Angeles, chairman of the subcommittee, said here is now "dollars and cents" controversy over the agency's support budget, although there is an increase of about $1.4 million over current spending.

However, Porter stated Legislative Anaylst Alan Post remains critical of "poor contractual relationships" between the state and its Squaw Valley Development Company and William Newsom's Squaw ital outlay costs in the future."

Post recommended the state get rid of its ski, chairlift and ski jump facilities at Squaw and eliminate its domitory operation there because these activities are competitive with private enterprise in the area.

"Consideration of the future has become important," says Post in his report, "because the operation has been costing the state approximately $300,000 per year, an amount equal to the concession revenue for the whole park system, and may lead to much greater capital ontlay costs in the future."

Post recommended that the state dispose of certain other Squaw Valley interests including the Nevada and California Centers; acquire from the forest service its interest in Blyth Arena and develop it; or no more campsites be constructed in Siberian Bowl.

The subcommittee approved cutting $15,000 from Squaw Valley's $50,000 fire protection budget, which will eliminate two full-time firemen from the crew of six.

FLU PASSES PEAK

The flu epidemic apparently has passed its peak at Sierra College where 282 students and nine teachers were absent last week. Nurse Teresa Markovich estimated approximately 20 per cent of the student body was effected. A total of 14 teachers missed one or more days of school, nine in one day, in an example of an unusual type of "occupational hazard."

SPECIAL SERVICES FOR LENTEN SEASON

During the Lenten season, Rev. J. Harold Howardr, pastor of Sierra Bible Church has prepared a series of appropriate sermons preparing for Easter. In the Sunday morning services which are held in the Sherritt Building in downtown Truckee, the subject of some of his 11 o'clock sermons will include: "Scenes in the Upper Room", "The Blood-Sprinkled Garden", "The Judas Perplexity"; "A Travesty Called a Trial", "And Simon Peter", "Barabbas, You Were There", and "All Things New."

In the morning service next Sunday, Rev. Paul Currie, district superintendent from San Jose will be the guest speaker.

In the Sunday evening 7 o'clock services, held in Kings Beach in the J. J. Mandeville, Sr., home the Rev. Howard continues a series of messages recently begun in the Old Testament Book of Isaiah. Wednesday nights at 7:30 in the same home, the pastor has just started a series of studies on Basic Christian Doctrines.

The 97-minute motion picture, Golgotha, illustrating Christ's last days will be shown several times on Good Friday, April 8 as Sierra Bible Church's contribution to Holy Week in the Truckee-Tahoe area.

If the first part of your vehicle identification number is here, you might be a winner.
Here's how it works. Look at the first symbols (the prefix) on your vehicle identification slip. Then look at the symbols listed above. If you find yours on the list, you've taken the first step toward being a winner. Now go see your Buick dealer. He has a list of 72 winners posted in his showroom. If you see your entire vehicle identification number on the poster—the symbols plus the rest of the numbers—$2332 cash is yours. (If your prefix isn't listed in this ad, don't give up. Your numbers may have been posted during the past few weeks. And every week there are 72 new winners posted on the showroom wall. So watch for next weeks list of new symbols in this newspaper.) No slogan to invent, no puzzles to solve. In fact, you don't even have to own a Buick to have a winning number. While you're in the showroom, get a good look at the Buick Special. The $2332.00* happens to be its price. *Manufacturer's suggested retail price for Special V-6, 2-dr. coupe. Price includes Federal Excise Tax and suggested dealer delivery and handling charge.
Contest Rules. Residents of Kansas, Missouri and Nebraska may, if they prefer, send in a postcard to R. L. Polk and Co., P.O. Box 1347, Detroit, Michigan 48231 and receive the weekly list of winning numbers by mail for comparison with their own vehicle identification number. An official entry form will be included. Sweepstakes limited to persons over 21 living in the continental U.S. Not valid in Florida or states where prohibited by law.

THREE ARE NAMED TO COUNTY FAIR JOB

Governor Edmund G. Brown announced the reappointment of William B. Weatherall and Herbert O. Pingree, both of Grass Valley, and Mrs. Ellen Peterson, of Higgins Corners, as members of the board of directors of the 17th District Agriculaural Association.

The reappointments are for four year terms.

"The continuing interest and outstanding contributions to the board of these three people have merited their reappointment," the Governor said.

Wetherall is city attorney of Grass Vallely. He has a law practice in Nevada City, and has served on the board since 1962.

Pingree, part-time farmer, is employed by the Nevada Irrigation District and is a member and past chairman of the Forest Springs Farm Center.

Cassidy Sisters Now At Nevada Lodge

CRYSTAL BAY — Take a tall slim brunette, a taller redhead and a blonde bombshell taller still; give them rocking voices and dancing feet, and you have the popular Cassidy Sisters — now spotlighted in the Topaz Room at North Lake Tahoe's Nevada Lodge.

The Cassidy Sisters — and they really are sisters! — are becoming one of the most popular lounge groups in the nation. Pat, Shari and Nita bring to the Nevada Lodge a colorful background of television, banquet appearances and club dates including impressive singing and dancing victories on stages of Reno and Las Vegas. These three vivacious gals started singing together when the youngest was only five years old, in Indianapolis — and since that time have polished and perfected their act until it is a shining example of dynamic choreography and precision singing.

As they enter their second week in the Topaz Room at Tahoe's largest year-round resort hotel casino, crowds marvel at the impeccable smoothness of their act, even though they are now in their early twenties. The years ahead will see the name Cassidy emblazoned boldly on marquees everywhere, just as it now promises an evening of rare entertainment at Tahoe's Nevada Lodge.

Flying Is Always Modern

These businessmen, women and their plane were considered "modern" in the 1930's. Mid-calf length skirts for the ladies and double-breasted suits for the men were the ultimate in high fashion apparel while the Ford Tri-Motor was the latest fashion in commercial air transport.

Passengers—the Ford could carry only 12—marveled at its speed, comfort and luxury. The co-pilot (the stewardess was yet unheard of) was ever present to collect tickets, explain how to adjust seats, safety belts, ventilators, heaters, and point out places of interest en route—except, of course, when his services were needed by the pilot!

The noise of the Ford's three engines made conversation difficult, yet, if you wanted a breath of fresh air, all you had to do was open the window!

What "modern" means today is a far cry from thirty-odd years ago. To hundreds of passengers on jet airliners "modern" means gourmet meals, movies and a swift arrival at their destinations, so very important to hurried business executives.

But one convenience of air travel was modern in the 30's and is still modern today. The Air Travel Card, "The World's Most Honored Credit Card," enables passengers to charge their trips on 130 airlines.

This year alone the airlines will transport more than 90 million passengers to their destinations.

MANY SEEK TOUGH, LOW PAYING POSTS

SACRAMENTO — (CNS) — California may have a grossly overworked and underpaid legislature but nearly 1,000 persons have indicated they'd like the chance to put up with the long hours and poor pay.

The deadline for filing declarations of intent to seek legislative office fell at 5 p. m. on February 23.

This was only the second time the declaration of intent law has been used but already there has been considerable grumbling that the provisions merely cause confusion and do not accomplish the purpose for which they originally were adopted.

Under the unique law adopted in 1963 and first effective for the 1964 elections, would-be candidates must file the declaration of intent in order to qualify to become candidates when the filing of nomination papers takes place in March.

There is no charge for filing the declaration of intent, nor no requirement that the peorson follow through and take out nomination papers. Apparently there also is little checking as to whether the person is a qualified resident of the district in which he files his declaration.

PLACER EXAMINATION

The system coordinator will administor Mother Lode Library System which includes two counties and one city. The position pays $8,500 per year with the contract negotiated annually.

Those Tuesday night Broom Hockey games at Blyth Arena in Squaw Valley are real scraping events. Did you see the picture of that goalie in the Life magazine? No wonder they wear masks!

The games are very informal and start around 6 p.m. Usually it's one ski area against another, but sometimes if one side needs more help, everyone gets into the act.

Editor Of Monitor Will Be Bay Speaker

One of America's most distinguished journalists, Edwin D. Canham, will speak in the California Masonic Memorial Temple, 1111 California Street, San Francisco, on Sunday March 13. His topic is on "The Spiritual Revolution." It will begin at 3 p .m. and is open to the public. Admission is free.

Canham is editor in chief of The Christian Science Monitor, an international daily newspaper published in Boston, Mass.

He is a Rhodes scholar who served as president of both the American Society of Newspaper Editors and the United States Chamber of Commerce, and also as an alternate American delegate to the United Nations General Assembly. His current positions include service with a number of governmental commissions, public institutions and corporations.

He is probably best known, however, for his penetrating analysis of current events that began when he was a young Monitor correspondent at the League of Nations and extends today over a broad range of public affairs.

Canham is now engaged in a public speaking tour that will take him to 40 of the world's major cities, on special assignment by the Christian Science Church.

ACTION DELAYED

The Nevada County Board of Supervisors delayed until the next meeting a request from Boreal Ridge Company asking that the name of the frontage road at Castle Peak Interchange on Interstate 80 be named Boreal Ridge Road instead of Frontage Road.

accept the combined position of auditor-controller.

Trauner is married to the former Doris Frank of Rough and Ready where they now reside. They have three children, Dale, Kathy and John.

Trauner has been active throughout his adult life in civic affairs, both locally and through the state. He is a veteran of World War II, having served with the 2nd armored division and was one of the soldiers privileged to participate in the triumphant march into Berlin.

Trauner has served during a period of great change in the county government as it affects his particular office. Presently he is engaged in the study and programing of electronic data processing which will become effective in the county July 1 of this year.

In asking the electorate to return him to his present office, he restates the pledge he made on the voters four years ago. In 1962, he stated:

"I pledge to the voters of this county a most efficient, progressive auditor's office at the most economical cost to the taxpaying public." Today in asking for support, he reiterated that pledge.

Briner

(Continued from Page 1)

He served with the United States Navy submarine service during World War II and with the United States Air Force during the Korean war. He was elected to the supervisor's post in 1960 and reelected in 1964.

Briner serves as chairman of the important Tahoe Regional Planning Commission which covers two states and five counties in the Tahoe basin. He is also a director of the North Lake Tahoe Chamber of Commerce, a member of the Lake Tahoe Area Council and for the past five years has served as director of the March of Dimes. He is also a member of the Boy Scouts of America Tahoe Council and a member of the Optimists.

The North Lake Tahoe Community Club presented him with the "Man of the Year" award in 1964..

Don Beck, who will act as chairman of the Briner for Senate Committee, said today:

"Because of the reapportionment of our state senate, Northern California will need exceptionally strong legislators. Bill Briner has proved himself to be a strong and active full-time supervisor during the past five years. He is a most capable organizer and has spearheaded water and timber legislation In order to preserve Northern California's great natural resources, the people of the third senatorial district need an effective legislator like Bill Briner."

Atomic Lecture To Be At High School

A demonstration lecture sponsored by the Atomic Energy Commission on atomic energy and its uses will be presented at the Tahoe Truckee High School on March 11.

The program, titled "This Atomic World," is designed to acquaint students with the basic principles of nuclear energy, its sources and role in industry, agriculture and medicine.

Robert Nestor will present the assembly program which breaks down into student terms topics including the structure of atoms, radiation, reactors and fusion. Nestor has completed extensive training at the Oak Ridge, Tenn., facilities of the Atomic Energy Commission. He is a graduate of the Bowling Green State University and holds a bachelor of science degree.

Specially designed electronic equipment is used during the 40-minute program to show such things as sources of radiation, how nuclear energy is harnessed to furnish electric power for cities, the use of radioisotopes to aid in diagnosis and treatment of diseases and to learn more about life processes.

22 High Students Take Merit Exams

Tahoe Truckee High School administered the National Merit Scholarship Qualifying Test to 22 students at 9:00 a.m. Tuesday, March 1, Harold Drummond, principal, announced today.

The NMSQT, a two and one-half hour test of educational development, was the first step in the twelfth annual competition for four-year merit scholarships. Students who wished to be considered for the merit scholarships to be awarded in 1967 must have taken the NMSQT on this date.

All students scores will be reported to their schools before May 15, together with interpretive and guidance materials for schools and students. The names of semifinalists will be sent to colleges and organizations offering financial aid to undergraduates. In October approximately 38,000 students who score just below the level required of semifinalists will receive letters of commendation for their high performance, although they will not be eligible to compete for merit scholarships.
